ADDITIONAL INFORMATION SUPPORTING NJD (e.g., paragraph 1 – site conditions; paragraphs 2-3 – rationale used to determine NJD, including information reviewed to assess potential navigation or interstate commerce connections; and paragraph 4 – site information on waters of the U.S. occurring onsite):

Wetland E is not jurisdictional because it is an isolated, non-navigable intrastate water with no nexus to interstate commerce. ~~It is connected to Granite Lake but water flows out of Granite Lake to Wetland E through an unnamed tributary. Water from Wetland E flows to Wetland F but Wetland F does not flow into any other waters of the U.S. Therefore, there is no potential for the use, degradation, or destruction of Wetland E to affect any other water of the U.S.~~ In addition, it is not subject to boating and is not open to the general public for use. Migratory birds may use this waterway. However, there is no other evidence of its use in interstate or foreign commerce. Based on Solid Waste Agency of Northern Cook County v. U.S. Army Corps of Engineers (531 U.S. 159(2001)), isolated, non-navigable intrastate waters are not jurisdictional under the Clean Water Act if the sole interstate commerce nexus is the use of such waters by migratory birds or other factors in the Migratory Bird Rule.

Deleted: It has no apparent surface water connection to and does not flow into any other waters of the United States.
